

Design Choices and Project Requirements Explanation

This project is a direct upgrade of my last assignment, where I took my previous pure HTML code layout and redesigned it using an external CSS stylesheet (style.css). My main goal was to take the original text and give it a clean, dark-themed layout that fits a premium workshop setting. I chose an obsidian black background (#0b0c10) for the canvas and contrasted it with a bright neon tech blue (#66fcf1) and a deep red racing border line (#660000) to create a high-performance, stealth garage look for the GT-R R35 builds.

I carefully followed every single instruction from the professor to make sure the page ticks off all the rubric requirements. The header is styled with a smooth dark linear gradient that instantly sets the mood. For the text content, I made sure to use two paragraphs styled with different configurations; the introductory paragraph uses a larger (1.2rem) font size and bold white text to draw the reader in, while the detailed paragraph underneath transitions into a muted ash grey (#959697) so it is easy on the eyes.

The performance specifications section features a custom list where I stripped out the generic browser bullets and replaced them with custom red block square markers (▪), using a 12px bottom margin to space out the layout perfectly. All three workshop images are fully styled with custom gunmetal borders, rounded corners, and a smooth hover transition that scales up the image with a red glowing effect. Finally, the footer uses a solid dark background with the copyright text downscaled to a smaller font size (0.75rem). I used three distinct layout rules to structure the page: a centralized 1000px max-width margin to center the page, specific header padding for internal text spacing, and a responsive Flexbox grid layout (display: flex) to align the gallery images side-by-side.

THE WORKSHOP GALLERY

Focused on the aggressive lines of the Liberty Walk silhouette.

1. LIBERTY WALK GT-R35 (Front)

2. LIBERTY WALK GT-R35 (Rear)

3. LIBERTY WALK GT-R35 (3/4 View)

FACTUAL PERFORMANCE SPECIFICATIONS

Mechanical Heart: VR38DETT

Engine Type: 3.8L V6 24-Valve Twin-Turbocharged

Power Output: 565 hp @ 6,800 rpm (Stock Premium)

Torque: 467 lb-ft @ 3,300-5,800 rpm

Drivetrain: ATTESA E-TS™ All-Wheel Drive with Independent Rear Transaxle

Transmission: GR6 Dual-clutch 6-speed Sequential

TOTAL BUILD INVESTMENT

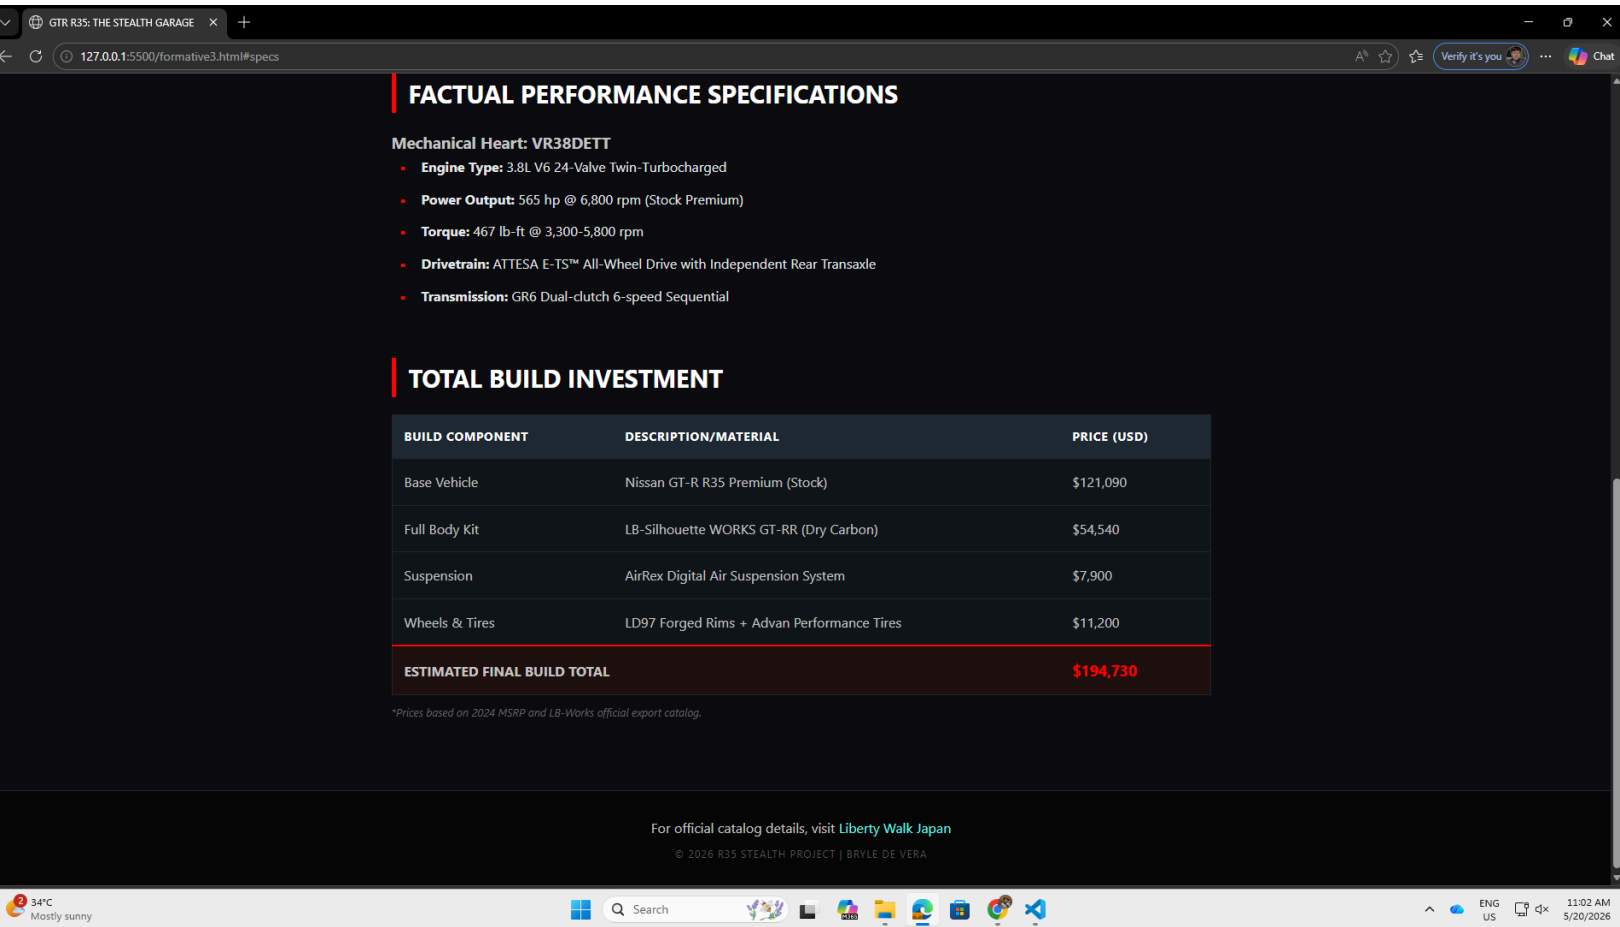

BUILD COMPONENT	DESCRIPTION/MATERIAL	PRICE (USD)
Base Vehicle	Nissan GT-R R35 Premium (Stock)	\$121,090
Full Body Kit	Lib. Silhouette MODKS GT-RP (Dry Carbon)	\$54,540

34°C Mostly sunny
